Lydia Rodgers

Arizona Huntress—Founder

As a native Arizonan, I have always enjoyed our outdoors. However, was not raised in a family who shared that passion. When I became an adult, I found someone who was into archery and was learning how to archery hunt. I wanted to be part of it! So I began learning alongside that person. As a domestic violence survivor and someone who struggled with anxiety, I found archery to be very therapeutic! After a long, hard day at work, I'd come home and sling a few arrows down to the target and found myself calm and with a clear mind. January 2017, I then began learning about archery hunting and camping. It just clicked - I WAS MEANT TO BE AN OUTDOORS WOMAN! I joined multiple social media groups trying to connect with others who shared these interest, ask questions, etc. Much to my dismay, I realized hunting was a male-dominated lifestyle and had a hard time connecting with fellow women. So in July 2017, I decided to create a group for WOMEN. This way there would be a supportive place to freely ask questions, share our stories of our adventures - whether they were successes or defeats. I was able to share about Arizona Huntress as of Late 2022 we are 1200 women strong throughout the state & growing! We have females of all ages in our group that share love for ANYTHING & EVERYTHING outdoors - not just hunting! It has been an honor and pleasure learning as I lead this sisterhood and I hope that our sisterhood continues to grow as we share our passion with other women!
